### Foreword by Horwath HTL Asia Pacific

Horwath HTL is pleased to present the 2023 Indochina Hotel Industry Survey.

The survey presents results of Financial Year 2022 from notable properties across Vietnam, Cambodia, Laos, and Myanmar. This year's study attracted a total of 94 participating hotels, which accounted for 20,225 rooms. We are excited to continue growing the reach of this study.

2022's international arrivals to Vietnam, Cambodia, Laos and Myanmar recorded strong recovery with the countries reopening borders; however, the tourism levels were yet to fully recovery to 2019 levels. Among survey participants, year-on-year occupancy increases were recorded across all four countries by 9 ~ 15 percentage points. ADR in most of these countries also increased by 35 ~ 96 percent except for Myanmar, recording a decline of 13 percent. Overall, RevPAR in all four countries recorded strong growth by 26 ~ 253 percent.

I would like to offer our heartfelt appreciation to all survey participants for your longstanding support of this publication. We are grateful for any feedback or comments you may have to offer that will assist us in continuing to improve the utility of this survey.

### Market and Survey Introduction

The benchmark data presented in this survey of operations for the hotel industry offers users a baseline reference on the operational performance of hotels in each category by and large. With great emphasis on presenting accurate benchmarks, the following fundamentals on the results presented should be noted.

Service Charges: In accordance to local industry practice, all respective departmental revenues, ADR and RevPAR are exclusive of Service Charges.

Government Subsidies: All respective department revenues and payrolls are excluding of government subsidies.

Previous Year Comparisons: The derivation methods of the previous year data (presented in the Summary of Results), has been retroactively adjusted to be consistent with the current year's practice. On this note, the calendar year 2020 figures shown in this current 2023 study (calendar year 2022) might not be identical to 2022's study.

Line Items: Vertical totals and averages may not add up as each average indicator is based on the hotels that contribute data for each specific line item.

Requisite Sample Size: Each average benchmark figure will only be presented if the number of respondents is more than 10 percent of the total respondents in the respective column group. Anything less than 10 percent will be show as Not Available (N/A).

Class Segment: Vietnam Hotels are categorized by the following class segments: Luxury, Upper Upscale, Upscale, and Midscale/Economy, which correspond to the following rate categories below. Class segmentation for 2023 (FY 2022) is based on FY 2019 performance. For new entrants, rate segment is given according to brand positioning and type/level of amenities offered.

Rate Category	Class Segment
Under USD 80	Midscale/ Economy
USD 80 - 120	Upscale
USD 120 - 200	Upper Upscale
Above USD 200	Luxury
